 <b>Agrisure<sup>®</sup>Duracade<sup>®</sup></b> 5122 E-Z Refuge <sup>®</sup>	No additional refuge required	20% supplemental refuge	Within or adjacent <sup>2</sup>
 <b>Agrisure<sup>®</sup>Duracade<sup>®</sup></b> 5222 E-Z Refuge <sup>®</sup>	No additional refuge required	20% supplemental refuge	Within or adjacent <sup>2</sup>

Refuge size is calculated by applying the appropriate percentage (e.g., 20%, 50%) to the TOTAL CORN ACRES.

<sup>1</sup> Assumes a common corn borer and rootworm refuge. Alternatively, a separate rootworm refuge within or adjacent to the Bt field and a corn borer refuge up to ½ mile away could be planted.

<sup>2</sup> Only applicable in the cotton-growing region where a supplemental 20% refuge is required for this product.

 These products may be offered as Agrisure Artesian<sup>®</sup> corn hybrids, which convert water to grain more effectively. Artesian<sup>™</sup> corn hybrids are designated by an 'A' at the end of the trait stack name.

The Agrisure<sup>®</sup> 3010 trait stack was previously sold as Agrisure<sup>®</sup> GT/CB/LL.
